## REASON FOR ALLOWANCE

### *Allowable Subject Matter*

1. Claims 7, 10, 20, 28, 29, 33, 34, 36-50, 52-68 and 70-95 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach an authentication system for transmitting information, said authentication system storing identification information of a plurality of providing users and a plurality of receiving users and being adapted to receive information from at least one of said providing users; authenticate said at least one providing user; transmit a message including said information via a mobile communications network to a receiving user's mobile terminal; extract a public key specific to said receiving user from said stored identification information; and use said further public key for encryption of said at least part of said message.

Allison in view of Arnold and Majumdar in a previous office action disclosed an authentication system for transmitting information of a plurality of providing users and a plurality of receiving information from at least one of said providing users; authenticate said user and transmit a message including said information via a mobile communications network to a receiving user's mobile terminal. However, Allison in view of Arnold and Majumdar fails to teach extracting a public key specific to said receiving user from said stored identification information and to use said further public key for encryption of said at least part of said message.

Therefore, claims 7, 10, 20, 28, 29, 33, 34, 36-50, 52-68 and 70-95 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
